

## MAKE REAL IMPACT WITH THIS FINANCE & SUPPLY CHAIN INTERNSHIP!

Looking for an internship at a dynamic, impactful, and socially responsible scale-up that'll make your fellow students jealous? Keep reading! We're looking for a new finance & supply chain intern starting January/February 2024. Get ready to dive into various aspects of a mission-driven scale-up!

At Hands Off we make **chocolate that makes you melt, not our planet**. We loooooove chocolate, but chocolate only really tastes great if you know that your choco cravings contribute less to the warming up of our planet. That is why we fight for chocolate that does not melt the earth. We make the most delicious plant-based chocolate and work with cocoa farmers to combat deforestation. This internship gives you the chance to contribute to this mission.

You'll assist in (further professionalising) our finance and logistics. Since we're all about our mission, your input and initiative on our sustainability practices are highly encouraged as well! Your spot as an intern in our team comes with a lot of independence, responsibility, and space for your own input.

Do you want to experience working in a young, smart and enthusiastic team, are you active, independent, driven and crazy about chocolate? Join our team in Hilversum!

### So, what will you be doing?

- **Finance:**
  - Support finance with day-to-day, weekly, and monthly administration and (management) reporting.
  - Come up with solutions for smarter workflows and systems.
- **Supply Chain:**
  - Support the daily logistics (planning, orders, inventory management, arranging transport).
  - Performing analyses for optimisation of our logistical processes.
- In addition to these tasks, would you also like to focus on **sustainability**, for example by improving our sustainability reporting? You can! Together we will have a look at what you want to focus on.

### Your Profile:

- You are following a WO (HBO) study in finance/economics/business/supply chain management or similar.
- You got theoretical know-how and a hands-on mindset.
- You are eager to learn and dare to take initiative (so that you can learn more).
- You are results-oriented, accurate, critical, and you have a great sense of responsibility.
- You are a team player who's independent with a sense of humour.
- Dutch proficiency (written/spoken) is a plus.

### What's in store for you?

- A challenging and diverse internship with a young, smart and enthusiastic team.
- A deep dive into entrepreneurship at a scale-up.
- Insights into different roles, tasks, and all things chocolate.
- Compensation of €400 per month.
